DRY GOODS MARKET.

NEW YORK, August 13.—The jobbers did an active business in nearly all departments during the afternoon, and buyers of piece goods were more active than for some time. Cotton yards continued very quiet, and exports of curtailment of production are in moderate request, Goods on order are being asked for promptly, and it is thought here, that the trade in the country is slowly broadening.

#### On Foreign Exchanges

LONDON, August 13 .- Money wa abundant and easy on the market to day and discounts quiet. Trading of the Stock Exchange developed an east day and discounts quiet. Trading on the Stock Exchange developed an easier tondency, with slack business, owing to the holiday. Grand Trunk broke sharply, from 1 to 4 points, on the absence of a dividend on the second preferred shares, but closed above the lowest for the day. Kaffirs and Copper shares lost their early improvement and Mexican rails eased on realization. Consols and gilt-edged securities, however, were maintained, owing to the monetary ease.

American securities opened a fraction over parity. Daring the forenoon the trading was moderate and at midday the market was quiet and steady, with prices 1-2 above to 1-4 below yesterday's closing. Profit-taking caused prices to droop in the afternoon. This was accentuated by Wall Street offerings, but New York support lator caused a sharp recovery. Union Pacific jumping from 212 1-4 to 216 1-4, and the market closed irregular.

BERLIN, August 13.—Trading on the BERLIN, August 13.—Training on the Bourse to-day was inactive. The ten-dency of prices early was slightly downward on the Turkish news, but they became firm later. Exchange on London, 20 marks 44 1-2

pfennigs for checks.

PARIS, August 13.—Prices on the Bourse to-day were steady.

Closing: 3 per cent, rentes, 98 francs 71-2 centimes for the account.

Vaughan & Williams, Agents, Exchange on London, 25 francs 181-2 centimes for checks.

Trade Conditions.

NEW YORK, August 12.—Bradstreet's to-morrow will say:

"Improvement is more manifest in general trade and industry this week, but there is still present the feeling of conservatism hitherto noted, which makes for small and frequent rather than heavy individual sales. Developments have been largely favorable, chief among these being the increased arrivals of buyers in most markets, a greater disposition to take hold for fall and spring delivery, a very favorable government crop report, the continuance of the marked strength in securities markets, the growing firmness of the time money market. Trade with first hands in dry goods is fair, while jobbing trade expands most rapidly, and retail trade is still engaged in digesting the remnant of summer husiness.

"The railroad situation is improving."

mess.

"The railroad situation is improving.

"Industries are active, iron and steel leading, with railroads reported buving freely of rails, cars and locomotives. Collections show a little improvement, but as yet do not reflect the influence of new crop marketing, possibly because of the farmers being busily engaged.

No Failing Off in Sales.

No Failing Off in Sales.

Notwithstanding the quietness of yesterday, it was said that there had been no failing off in sales, and that August of this year would beat the corresponding month of almost any other year. Prices are still holding their own, and all recent purchasers seem satisfied with their holdings. As long as purchasers are content with recent acquisitions, it is considered a good indication that the real estate market is in a flourishing condition, without likelihood of prospective depreciations. preciations.

without insclinood of prospective depreciations.

Broad Street property is still at a premium, and many residences are still being bought and sold at satisfactory prices, while speculators in small investments are still working at a profit.

The building trade is also stated to be in good condition, for many new and handsome residences, both in the city and in the suburbs, are being erected, and there is much work of addition and improvement going on in both large and small stores.
